BedSoft Bio

BedSoft Bio is made from oilseed rape straw and in tests absorbed more than 250% of its own weight in water. The product is checked for moisture (maximum 15%) before being processed.

BedSoft Bio is easy to muck out and extremely absorbent. Once on the muckheap, BedSoft Bio biodegrades quickly, keeping disposal costs to a minimum.

BedSoft Bio absorbs 250% of its weight

BedSoft BioPlus

BedSoft BioPlus is made from oilseed rape straw and quality woodshavings. The specially manufactured shavings are from a sustainable source.

BioPlus offers horse owners the best properties from both oilseed rape straw and woodshaving beds - it is highly effective and absorbent while the addition of the woodchips helps to keep the bed fluffy and comfortable.

BedSoft BioPlus is a mix of shavings and straw
